

« Change we can believe in »

Open Access and Institutional Repositories in Belgium

Charles-Henri Nyns, UCL

What we have done until now

- **in Belgium**
- **in the Frenchspeaking part**
 - **BICTEL**
 - **new IRs : ORBI, DIAL, ...**
 - **next steps**
- **politics**
 - **Berlin Declaration**
 - **mandatory deposit (on the way)**

Why we have done it

- **journal prices**
 - price increases
 - what value for your money ?
 - each one his job
 - back to some market rules
- **archiving issues**
 - from ownership to access
 - keep care of your (scientific) capital

Why we have done it (2)

- **the changing paradigm of scholarly communication**

- overlay journals
- immediate release
- + data
- work in progress
- ...

IR are the best way to accompany the changes in scholarly communication
